

# ***Advanced Proteome Therapeutics Inc.***

Advanced Proteome Therapeutics Inc. (APTI) is a new, Boston-based company located at the Boston University incubator at BioSquare that is applying a bold platform technology geared toward the rapid commercialization of protein therapeutics. We are seeking skilled experimentalists who thrive on providing innovative solutions to challenging problems and are both independent and strongly interactive, and who are interested in pioneering an entirely new approach to drug discovery and development that is broadly based on underutilized chemical principles, as applied to protein-site targeting.

We are seeking a Research Scientist with the following skills.

## **Research Scientist – Peptide Chemistry (PhD)**

### **Description:**

- Perform synthesis of peptide combinatorial libraries
- Perform solid and liquid phase peptide synthesis and purification using commercial instruments
- Perform post-synthesis chemical modifications and synthesis of peptide conjugates
- Develop new linker technologies
- Characterize peptide-based new chemical entities

### **Qualifications:**

- Organic/Medicinal chemistry Ph.D. with 3-10 years of experience in organic synthesis with an emphasis on peptide synthesis and modifications.
- Must be a self-starter and highly motivated researcher
- Demonstrated ability to perform assigned work with minimal supervision
- Performs laboratory experiments in a consistent, reliable, accurate and timely manner
- Communicates clearly in written and verbal forms
- Effective team skills and ability to understand deadlines and commitments

Experience with peptide combinatorial libraries and Symphony Multiple Peptide Synthesizer is a definite plus.

APTI offers a dynamic work environment as well as an excellent salary and stock option package.

If you possess a venturesome and enterprising spirit, and the prospect of shaping the direction and culture of a new company ignites your interest, please e-mail your resume and a cover letter to [jobs@aptbiotech.com](mailto:jobs@aptbiotech.com).
